Based on images of the main characters and villains in the famous novel and the real fans of Dragon Ball, the publisher of Blackhole Studio has released a super competitive role-playing game called Shadow Battle. The first version of 2.1 appears to have been released immediately after the came up with the idea to satisfy your hunger after waiting. Not to stop there, after the successful release of version 2.1 with positive reviews and strong support, ideas and suggestions of the gaming community, May 6, 2018, past. Shadow Battle version 2.2 has been released with more complete and detailed updates. Along with this, there are major upgrades to the character system, store items, and attacking skills. Every skill upgraded to strength in every attack promises to bring players the gift can't be ignored with this role-playing game. Plot With the continuous development of the dark forces of the universe in both power and race, more specifically in Shadow Drankness, our Earth gradually wraps itself in the shadow of this power, the world in your hands, swept people into the war of the smoke of fire. So one day, our world will be occupied, and people will become slaves under the demons, and now our generals are being held captive. Only you - a commander in charge of the great commander must take the lead and fight the dark army must limp, restore peace to the world, return to life peacefully. For humanity, rescue the heroes imprisoned for so long! Gameplay When you participate in the game, you will have a default character, the game's character system is quite large, but you need gold money to be able to unlock them, so how to get the money? You have to go match and do missions, the mission system of the game is very arranged with increasing difficulty, also that your opponent is so that it grows stronger than the ratio of money and the item you received. With this fun but addictive game, the game will provide you with a variety of skills and controls, and you'll be able to control your left and right hand directly by touching your smartphone screen. When you want to use a high attack, move the target to the right and click on the skill, is it easy? However, the higher your MP capacity, the more MP you need to keep and spend enough TIME recovering MP to use the next capacity. Then you need to keep your blood dry without your opponent lying down. If you feel that your opponent is too strong or just playing, don't worry, there is a store system with components that help you have stronger skills and longer maintain HP and MP. Sum up with crisp 3D graphics, dark tones can't fit into the wild war scene; you will immerse yourself in the virtual world, turning your shoulders into the same hero, but you feel so real. With these graphics, gaming community ratings on a scale of 10 are also 10. I also find it very standard, graphics are a huge part affect the mood of players strongly, if the game is a weak graphics, the lack of sharp people who insisted right? Shadow Battle - fighting with beautifully designed sets and smooth movement of fighters. A huge number of characters, though hidden in the shadows, but recognizable and popular. On the list will be the old school and new entrants in recent years. Each of them has a unique fighting style and a variety of skills that makes the battle to an entirely predictable result with amazing results.
